SUMMARY

I am an MCA student and BCA graduate (CGPA 9.36) with a strong interest in data analytics and machine learning. I enjoy turning raw data into clear insights and building models that solve real problems. With experience across data, development, and business roles, I'm now deepening my skills through my MCA and growing as a data professional.

TECHNICAL SKILLS

Languages: Java, Python, SQL, C, C++
Data Analytics & Machine Learning: Data Cleaning, EDA, Feature Engineering, Model Evaluation, Hyperparameter Tuning, Data Visualization
Frameworks & Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, XGBoost, imbalanced-learn (SMOTE)
Development: Frontend Development – HTML, CSS, JavaScript, REST API Integration, CRUD, OOP
Databases: MySQL, Supabase (PostgreSQL)
Tools & Platforms: Power BI, Git/GitHub, Google Colab, VS Code, Spring Tool Suite

EXPERIENCE

Data & AI Intern | Graphura India Pvt. Ltd. *May 2026 – August 2026*

- Developed a Power BI dashboard analyzing portfolio readiness across 272 interns, covering job readiness, department performance, and skill gaps.
- Developed and evaluated machine learning models for fake job/internship scam detection using Random Forest, XGBoost, and Logistic Regression, achieving 0.9626 ROC-AUC after Random Forest hyperparameter tuning.
- Led a 3-member team to develop a Review Management System, building the frontend and REST API integration using HTML, CSS, JavaScript, and Supabase.

Business Development Intern | Dryzle Inc *June 2025 – August 2025*

- Conducted market research and competitor analysis to support business reporting and strategic recommendations.
- Prepared business proposals, presentations, and client documentation, collaborating with internal teams on communication and business operations.

PROJECTS

Fraud Detection Model - *Python, Scikit-learn, Machine Learning* | GitHub

- Built an ML fraud detection pipeline on 10,000+ synthetic transactions, including preprocessing, feature encoding, and SMOTE-based class imbalance handling.
- Compared Logistic Regression and Random Forest; Random Forest achieved 99.65% accuracy and 96.52% F1-score.
- Analyzed feature importance to identify key transaction-level fraud predictors.

UIDAI Aadhaar Enrollment Analysis 2025 - *Python, Pandas, Matplotlib* | GitHub

- Analyzed 1M+ Aadhaar enrollment records to identify regional, district-wise, and monthly trends.
- Performed data cleaning, aggregation, and visualization to support trend analysis using Pandas and Matplotlib.

Employment Payroll Management System - *Java, MySQL, Spring Tool Suite* | GitHub

- Built a Java-based payroll system for employee records, salary processing, and payroll operations.
- Implemented full CRUD functionality with backend logic and MySQL database integration, applying OOP principles for a modular application structure.

EDUCATION

MCA (Master of Computer Applications) | *2026 – 2028 (expected)*
Indira College of Engineering & Management, SPPU University, Pune
BCA (Bachelor of Computer Applications) | *2023 – 2026*
K.B. Joshi Institute of Information Technology, SNDT Women's University - CGPA: 9.36 / 10

CERTIFICATIONS

AI Fluency for Students - Anthropic (August 2026)
Computer Vision with Python (Bronze) - Innomatics Research Labs (Jun 2026)
Getting Started with AI - IBM SkillsBuild (September 2025)
Foundation Course on Industry 4.0 Technologies - TechSaksham, Edunet Foundation (April 2025)

ACHIEVEMENTS

Academic: 2nd Rank - BCA Semester 2 (CGPA – 9.90); 3rd Rank - BCA Semester 4 (CGPA – 9.16)
Competitions: 2nd Rank - CODE CRACKERS Front-End Development Competition (July 2025); 3rd Rank - Machine Learning Case Study Competition (December 2025)
